

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A waterproof bag comprising:
 - a woven base component;
 - at least one waterproof film laminated to an entire inner surface of the base component; and
 - a printed film adhered only on certain portions of an entire to an outer surface of the base component to produce the waterproof bag.

2. (Original) The waterproof bag of claim 1, wherein the base component is weaved with synthetic resin yarns.

3. (Original) The waterproof bag of claim 1, wherein the waterproof bag has a cylindrical configuration.

Claims 4-5 (Cancelled)

6. (Previously Presented) A waterproof bag comprising:
 - a woven base component;
 - at least one waterproof film laminated to an inner surface of the base component; and

a printed film adhered only on certain portions of an outer surface of the base component to produce the waterproof bag.

7. (Previously Presented) The waterproof bag of claim 1, wherein said at least one waterproof film is cylindrical.

8. (Previously Presented) The waterproof bag of claim 6, wherein said at least one waterproof film is cylindrical.
